SOFTWARE ENGINEER | SOFTWARE DEVELOPER

Aspiring Software Engineer with a strong academic foundation and a CGPA of 3.75 from UPSI. Proficient in web and app development using frameworks such as Vue.js, React.js, and Ionic. Passionate about applying academic knowledge to develop innovative solutions and drive organizational success. Available to start in mid-February 2025, I am eager to join a forward-thinking team and grow professionally while contributing meaningfully.

PAST/PROFESSIONAL EXPERIENCE

PKT Logistics Sdn Bhd (ICT Intern @ Front-end Dev) **(Sept 2024 - Present)**
- Design and build user-friendly UI components for new modules in the Services Portal (E-Forms).
- Collaborated with backend developers for seamless API integration using Axios.
- Optimize front-end performance and guarantee cross-browser compatibility for a smooth user experience.

7 ELEVEN (Store Crew) **(June 2022 - October 2022)**
- Executes assigned tasks to maintain store standards.
- Provides customer service aligned with 7-Eleven standards.
- Handles cashiering, ordering, and training as directed by the Store Manager/Assistant Manager.

AKLA SERVICES SDN BHD
